# Cannoli Specs

Vaccaro's cannoli shells are made from scratch using only real, wholesome ingredients. After extensive sheeting that breaks down and blends the dough, in addition to creating thousands of layers, each cannoli is hand rolled according to our strict standard, then deep fried in 100% trans fat free vegetable shortening for approximately two minutes; making a light, flaky, non greasy, fine pastry cannoli shell with small bubbles but still sturdy for shipping.

Our cannoli shells are packaged in custom made six count trays (one size for large cannoli, another for mini) with individual cells for each cannoli and lidded. Each tray of six is then **overwrapped** to seal out moisture and seal in great cannoli taste (something no other manufacturer does), keeping Vaccaro's cannoli shells crisp & fresh.

Available in two sizes: **large**, which are approximately 5 inches in length and **mini**, which are approximately 2 3/4 inches in length.

Both mini and large come plain or with the ends dipped in chocolate.

Our cannoli cream is made with two different types of the best impastata style ricotta cheeses (prepared to our specification by our cheese makers) which are blended and passed thru our over 100 year old secret process, making Vaccaro's cannoli cream so smooth and fluffy. Top quality chocolate chips offer satisfying texture contrast and flavor. Real vanilla extract and Saigon cinnamon give Vaccaro's Cannoli cream a sophisticated, subtle taste profile pleasing to the most discerning palate. Packaged in 4-12 oz. disposable pastry bags per case, Vaccaro's cannoli cream is easy to use, just snip, squeeze & serve.

1 case of cannoli cream fills 1 case of mini cannoli or 2 cases of large cannoli.

Small case sizes ensure end users are rotating fresh product.

Cannoli shells last 3 months stored dry & unopened.

Cannoli cream last 6 months frozen & 2 weeks refrigerated.
